

# NoPeel Peel

Experience gentle exfoliation with no expected visible peeling or downtime with our universal professional peel treatment. Formulated with a blend of exfoliating acids and calming ingredients, this superficial peel promotes cell turnover and boosts the production of collagen to help prevent signs of premature aging while helping reduce inflammation post-treatment. This efficacious peel treatment is suitable for all Fitzpatrick's and skin types, especially sensitive skin, and it helps support barrier function and recovery.

## Key Benefits

- ✓ Promotes gentle exfoliation with no expected visible peeling\*
- ✓ Reduces sensations and irritation during treatment\*\*
- ✓ Helps reduce inflammation and minimize the appearance of visible redness post-treatment
- ✓ Helps smooth skin and boost brightness
- ✓ Promotes skin renewal and a more even skin tone
- ✓ Removes impurities and decongests pores

## Active Ingredients

- + **Lactic Acid (15%)** - An alpha hydroxy acid (AHA) that breaks down the bonds between cells (desmosomes) to allow for easier exfoliation of dead surface cells. It also hydrates the skin and inhibits melanogenesis by suppressing the formation of tyrosinase.
- + **Gluconolactone (10%)** - A gentle polyhydroxy acid (PHA) that is calming, moisturizing, and promotes a clear complexion.
- + **Salicylic Acid (2%)** - A calming lipophilic beta hydroxy acid (BHA) that helps promote a clear complexion.

\*When pre-treatment protocols are followed. Light flaking may be present in some individuals post-treatment if the skin has been exposed to harsh environmental stressors, retinoids, products with high percentages of AHAs/BHAs, or other factors.

\*\*Typically associated with professional peel treatments

### Skin Type

- Dry
- Oily
- Combination
- Normal
- Sensitive

### Ingredients

Alcohol Denat., Water, Hamamelis Virginiana (Witch Hazel) Water, Lactic Acid, Gluconolactone, Alcohol, Glycerin, Salicylic Acid, Arginine, Saccharide Isomerate, 1,2-Hexanediol, Caprylyl Glycol, Butylene Glycol, Propanediol, Asiaticoside, Sodium Hydroxide, Centella Asiatica Leaf Extract, Scutellaria Baicalensis Root Extract, Polygonum Cuspidatum Root Extract, Camellia Japonica Flower Extract, Citric Acid, Sodium Citrate, Tropolone, Phragmites Communis Extract, Poria Cocos Extract, Camellia Sinensis (Green Tea) Leaf Extract, Glycyrrhiza Glabra (Licorice) Root Extract, Rosmarinus Officinalis (Rosemary) Leaf Extract, Chamomilla Recutita (Matricaria) Flower Extract.

## Key Ingredients

- + **Arginine AHA Complex** - An amphoteric hydroxy complex composed of lactic acid bound to the amino acid arginine. This complex slowly releases lactic acid into the skin to help minimize irritation, allowing even sensitive skin to benefit from lactic acid.
- + **Centella Asiatica (Cica) Leaf Extract and Asiaticoside** - A botanical that provides fibronectin and collagen synthesis while also inhibiting inflammation and calming the skin.
- + **Saccharide Isomerate** - A plant-derived moisturizing agent that delivers instant and long-term hydration for up to 72 hours. It also improves skin barrier function to maintain moisture levels.
- + **Poria Cocos Extract** - An MMP inhibitor and antioxidant that fights reactive oxygen species and matrix metalloproteinases that are associated with skin aging.

## Pro Tips

**NoPeel Peel** is ideal for first-time peel patients and those wanting a less intense peel in between their professional treatments.

Please encourage your patients to follow our pre-treatment protocol to properly prepare their skin for the **NoPeel Peel** professional peel. These guidelines will help ensure a pleasant treatment experience and help prevent visible peeling caused by dry skin.

Before

Immediately post-treatment

After 1st treatment (four weeks)

After 2nd treatment (two weeks)
